Academic Engagement at the NCCoE

The National Cybersecurity Center of Excellence (NCCoE) actively builds relationships with academia to collaborate on real-world, standards-based cybersecurity guidance that addresses business needs and helps train a cyber-capable workforce by involving students in the applied cybersecurity mission of the NCCoE.

Join the Community of Interest (COI)

The group convenes bi-monthly to promote knowledge sharing, workforce development tactics, and collaboration opportunities between NCCoE and students, faculty, researchers and administrators.

There is no cost to join or participate.

Request to join:
nccoe-studentlab@nist.gov

Areas for Collaboration

Participate in Applied Cybersecurity Experiences

- Student Internships
- Undergraduate/graduate capstone projects
- Graduate research assistantships

Facilitating Knowledge Sharing and Giving Back

- Invite NCCoE technical leadership to participate on advisory committees or as event speakers
- Co-host an event with the NCCoE
- Submit project ideas to NCCoE, provide feedback, or collaborate on projects
- Participate in student and industry-led events at the NCCoE
